

Sullivan Creek (WA)!

Restore

Sullivan Creek Dam Removal: Mill Pond Dam is gone! Based on 10 years of work this 50 foot dam has been removed as of last week. We'll do a follow up film next year and share the success with our members.

Idaho Forest Planning

Protect

Idaho Forest Planning: Forest planning efforts in the Lochsa, Clearwater, and Salmon watersheds offer incredible opportunities for agency-level Wild and Scenic protections. With this said, agency planners are proposing sketchy maneuvers to diminish those protections. Public and staff engagement in 2018 will be key.

Montana Wild and Scenic

Protect: 500 miles of 50 streams

Montana Wild and Scenic: Public support is significant and growing for our coalition's proposed new Wild and Scenic designations in Montana, but the state's political representatives have not gotten the East Rosebud Wild and Scenic Rivers Act passed or introduced the larger bill. We'll keep the conversation going into the 2018 election year.
