

# Public Access Legal Guide

## Protect: Access Across California

New Legal Guide to Public's Right to River Access: American Whitewater remains engaged in efforts by the California State Lands Commission to issue a Public Access Legal Guide. This invaluable tool will ensure state and local agencies adhere to protecting public use and access along California's rivers.

# Mokelumne River

## Protect: State Wild and Scenic

Mokelumne River: A study requiring the State Secretary of the Natural Resources Agency to study the suitability of the Mokelumne River for proposed designation as a State Wild & Scenic River is scheduled to be completed in December 2017. Once released, American Whitewater will continue work with Foothill Conservancy and Friends of the River to make State Wild & Scenic River designation a reality.

# Tuolumne River

## Enjoy: Wards Ferry Bridge Access

Tuolumne River: Modesto Irrigation District and Turlock Irrigation District have released their Final License Application for their hydroelectric project on the Tuolumne River. Sited alternatives within the application meet our objectives half way for this whitewater boating take-out. American Whitewater continues it's long term work on this project to advocate for a safe multi-access recreational area at Wards Ferry Bridge.
