EXECUTIVE SUMMARY

COMMERCIAL RIVER USE IN COLORADO

2009 Year End Report

River use in the State of Colorado stood at 486,000 users in 2009. The rafting industry was down about 31,000 guests from 2008. This is a 6% drop in use. Use in this mature industry has fluctuated between 460,000 and 540,000 since 1997.

This decline is another result of the slow economy. Longer and more expensive trips suffered the biggest decline in 2009. Extremely high or low snowpack was not a factor in this year's decline.

The industry was down slightly in economic impact from 2008, posting the third highest impacts ever at \$142 million.

Be aware that use figures for the Upper Colorado were estimates in 2008. In 2009 the Upper Eagle and Piedra are estimates. Efforts are being made to acquire accurate figures.

The Colorado River Outfitters Association compiled this study. Copies are available by contacting Joe Greiner at rapids@inaraft.com. It can also be downloaded from the web at www.croa.org. The PDF file is located in the "Media Room". Members of the association adhere to a Code of Ethics and offer quality trips on all of Colorado's rivers.

GLOSSARY

User Day: A user day is defined as a paying guest on a river for any part of a day.

Direct Expenditures: The total cash outlay for rafting, food, lodging, souvenirs, etc. spent in the local area by one river rafting customer in one day. Taken from a survey conducted in 1991 and published in 1993 titled "The Use and User Characteristics, Management Preferences, and Satisfaction of Boaters and Anglers on the Arkansas Headwaters Recreation Area (Colorado)"
